SyncSpace e Design Features

Structure of the wardrobe

It contains a washing cabin and a drying cabin. Before ending up in the storage cabin the clothes will be ironed.

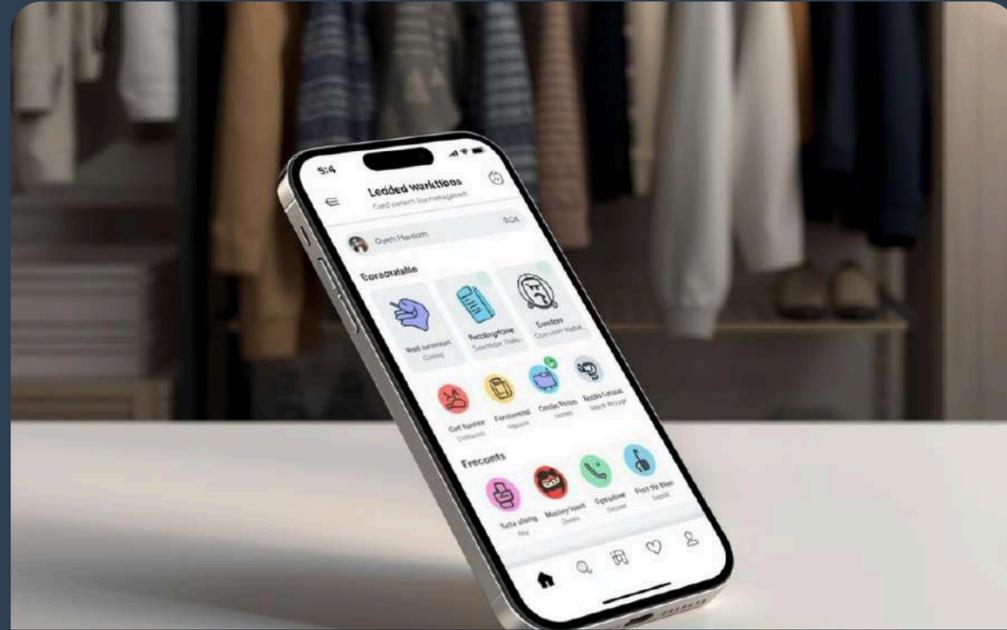

Save on bills

By purchasing SyncSpace you will save on the price of each individual component and on your end-of-month bill.

Smart Sensors for Effortless Management

Mobile App for Seamless Outfit Planning

IA Control for Ultimate Convenience

Smartech Functionality

Climate Control

Thermostat for regulating water temperature during washing.

Odor Removal

Innovative technology eliminates unwanted smells effectively.

How it works?

The wardrobe goes through a simple process. It first goes to the wash cycle and then a tape bring the clothes to the dryer. Then the mechanical arms takes the clean clothes to iron and fold them.

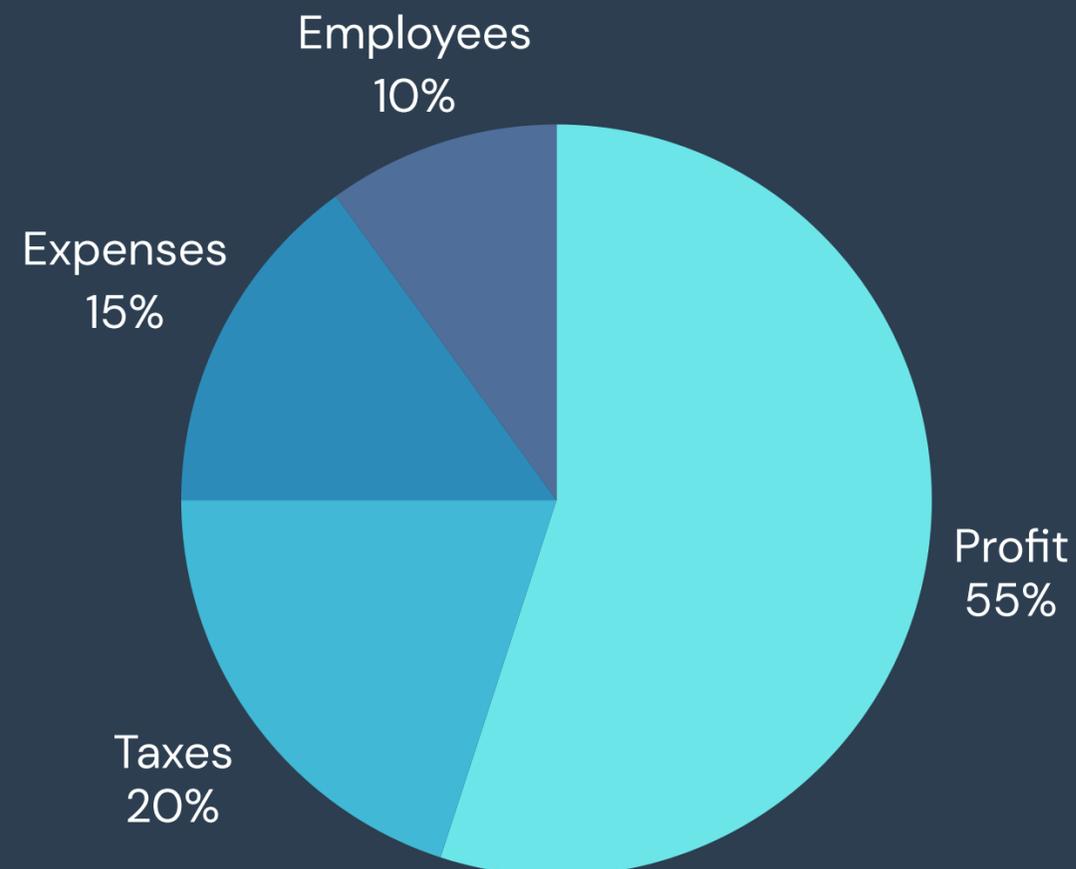

Cabinet installation

For installation, you can rest assured: one of our trusted technicians will come to you to install the wardrobe at no additional cost.

Two pipes will be installed on the back of the cabinet: one for water inlet and one for water drain.
